

CUCS | Janian Medical Care

COVID-19 (Coronavirus) UPDATE

This interim guidance is based on what is currently known about the coronavirus disease 2019 (COVID-19). CUCS and Janian will update this interim guidance as needed and as additional information becomes available.

PROTOCOL FOR MEETING FACE TO FACE WITH CLIENTS | SUPPORTIVE HOUSING, ACT, IMT, CAREER NETWORK

March 20, 2020

1. Prior to any interaction with a client, ask these 4 questions:
 - a. Do you have a new or worsening cough?
 - b. Do you have a sore throat?
 - c. Are you feeling feverish?
 - d. Do you have new or worsening shortness of breath?
2. If the answer is yes to any of these 4 questions, or the client appears to have these symptoms, give the client a mask to wear if one is available. Stand at least 6 feet away from the client. Have client wait in a private room, or stay in or return to their apartment, if possible.
3. Notify your Program Director
4. Consult with Janian if possible.
5. If Janian is not available, offer to call 911. At this time, a person will likely only be tested if they are sick enough to be hospitalized.
6. If the client declines hospitalization, ask the client to self-isolate in their home until they are feeling asymptomatic.

Consult Janian Primary Care at next opportunity
