- Our psychiatric treatment is integrated with primary healthcare.
- We provide psychiatric medications that are evidence-based practices tailored for individuals with the experience of homelessness.
- We provide medication-assisted treatment and harm reduction approaches to address addictions.

### **Janian Psychiatry is community-based:**

- We remove barriers to care by traveling to treat individuals in the streets, shelters, community centers and permanent supportive housing.
- Our psychiatric treatment addresses population health issues that occur for those experiencing homelessness.
- We partner with community agencies and programs so that those with the highest healthcare need access psychiatric treatment.
